Resolution No. 2001-38

Whereas, healthy and safe communities depend upon a sustainable infrastructure.

Whereas, the village desires to increase the sustainability of its utility to improve the community's health and its economy, increase its educational opportunities and quality of life, by forming relationships with outside identities such as the YKHC Rural Utility Cooperative (RUC), and the Alaska Native Tribal Health Consortium's (ANTHC) Alaska Utility Supply Center (AUSC) to take advantage of economies of scale.

Whereas, YKHC desires to assist the Village in improving the sustainability of the water and sewer service in the village, thus improving the overall health of the community.

Whereas, YKHC is developing a RUC to assist the Village in improving the overall health of the community.

Now therefore be it resolved, that the Village will allow YKHC, at YKHC expense, to review the operational and financial records of the village for the purpose of determining the operational cost of the water and sewer services.

Now therefore be it resolved, YKHC will provide the Village with a written report and recommendations on the status of their water and sewer system services.

Now therefore be it resolved, the Village will entertain the idea/concept of joining a YKHC RUC, dependent upon an agreed upon business plan and cost benefit to the Village.
